Work History

2020-06 -

Current

Data Analytics Lead

Northern Trust, Bangalore, Karnataka

Developing data analytics capability for a large transformation project for Global Funds services domain. My responsibility is to help provide right insights using data to the transformation project and to implement a decision support system.

This would lay foundations to predictive analytics for the global fund services operations.

My job is at intersection of Fund Accounting domain, data engineering and data analytics

2018-06 -

2020-06

Lead Consultant

Northern Trust, Bangalore, Karnataka

I managed a team of sr. Consultants and Consultants to drive a good and stable internal control environment for Fund Accounting, Hedge Fund Services, Middle Office Operations and Transfer Agency businesses. I was instrumental in creating and driving a good control framework for these business units resulting in much better control environment.

the Fund Accounting operations, working with stakeholders to identify a sustainable solution and influencing the leadership to adopt these solutions as business practices.

2014-09 -
2016-08

Consultant

Northern Trust, Bangalore, Karnataka

My responsibility was to test the feasibility and provide a proof of concept to have a separate internal controls role for Fund Accounting division in India. I identified control deficiencies and worked with managers managing operations to remediate these deficiencies. This led to creation of internal controls team.

2012-11 -
2014-09

Team Lead

Northern Trust, Bangalore, Karnataka

I was responsible to manage a team of accountants valuating varied types of funds. I was responsible for daily delivery by the team and any trouble shooting and timely escalation of any issues that might threaten daily KPIs
